

WATER REBATE PROGRAM
CITY OF DEVINE
HIGH EFFICIENCY MACHINE REBATE PROGRAM
AS ADOPTED 04-04A

PURPOSE:

In order to conserve water and energy and preserve the environment, the City of Devine has implemented a Washing Machine Rebate Program.

EFFECTIVE DATE:

April 20, 2004

FACTS:

Water conservation is a major factor in the preservation of our natural resources. Front-loading washing machines use from 1/3 to 1/2 less water than top loading machines. Front loading washing machines use less energy, thereby saving in energy cost. Water and energy saved results in money saved for the consumer and the City.

WHO IS ELIGIBLE:

The Customer of Record or Consumer only is qualified to participate in the program.

PURCHASE REQUIREMENT:

The purchase of high efficiency front-loading washing machines only will qualify.

Purchase must be from a Medina County dealer.

One rebate per customer/consumer is allowed.

AMOUNT OF REBATE:

\$100.00

APPLICATION:

Application forms are available at City Hall.

Application as well as the receipt must be in the name of the City of Devine Customer/Consumer.

Application for rebate must be made within thirty days of the date of purchase.

ADMINISTRATION OF REBATE:

Upon completion of the application and acceptance by the City of Devine Superintendent, a \$100.00 credit will be posted to the Customer/Consumer account with the City of Devine. The credit can only be used for water and service fees incurred with the City. The credit must stay with the account. If the Customer/Consumer sells, transfers, moves, or loses the service, the credit will not be transferred or refunded.

LENGTH OF PROGRAM:

The City of Devine High Efficiency Washing Machine Program is an on going program and will be continued until such time as the City votes to rescind the program.

ADOPTED AND SIGNED ON THE 20TH DAY OF APRIL, 2004.
